

UFOs Contact Events 10-27-2019

It is important to understand that UFOs reside at a higher level of consciousness. When humans come into contact with their level of consciousness those vibration or frequencies are beyond the our level of perception and understanding. Hence, when the average human, due to past life karma, or soul sanction necessity comes into contact with these beings who possess higher levels of consciousness it inevitably look unintelligible or scary. Moreover, without proper training and a correct understanding of the many issues involved with contact events most folks will mock or villian-ize the experience, and will try to bring it down by distorting the event emotionally. Without proper occult training in the astral and etheric levels of consciousness, under the watchful eye of a master, scientific understanding of the contact event is not possible for the current crop of researchers.
